

Display unit

BDD-UM 3023

Order code: BAE006K

BALLUFF

sensors worldwide

- Display unit
- Digital Display
- Analog position meas. systems
- Analog sensors
- Plastic material

■ 18-36 V DC

General attributes

| | |
|------------------------------|-------------------------------|
| Application | Analog position meas. systems |
| Approvals / Conformity | Analog sensors |
| Indicator | CE |
| Protection class cover front | 7-segment LED |
| Protection type connections | 4 characters, red |
| Setting | IP54 |
| | IP20 |
| | Input signal selection |
| | Decimal place |
| | Tare |
| | Scaling |
| Short description | Digital Display |

Electrical attributes

| | |
|---------------------|-----------------------------|
| Cycle time min. | 5 measurements/s |
| Functionality | Analog value indicator |
| Input resistance | Voltage >50kΩ Current 10Ω |
| Input signal | 0-10 V or 0-20 mA / 4-20 mA |
| Keypad | Membrane keyboard |
| Rated input current | 65 mA |
| Rated input voltage | 18-36 V DC |

Mechanical attributes

| | |
|---------------------------|-----------------------|
| Cut-out for control panel | 45 mm x 92 mm |
| Size | 96 mm x 48 mm x 80 mm |

Additional text

Panel cutout 92 mm x 45 mm
